

**Notice to Marine Users 2025  
Teesside Offshore Windfarm  
Important Notice to All Marine Users**

**18<sup>th</sup> January 2025**

**Planned Maintenance – Removal of underwater obstructions at  
Teesside Offshore Wind Farm with Lieutenant P & ROV on site.**

Subsea Inspections and removal of underwater obstructions are planned to take place within the boundaries of Teesside Offshore Wind Farm with the assistance of the 'Lieutenant P' and associated ROV. The works will involve underwater visual inspections and removal of obstructions onsite. Anticipated duration of work is 5 days depending on the weather conditions. We plan for the works to commence on or around the morning of 18th January depending on weather conditions.

**For safety reasons there will be a 500m exclusion zone around the radius of turbines and vessel shown below:**
